Resource Room, Finger Lakes Works-Seneca, 315.539.1905

Check out one of our favorite websites to research some job leads:

www.indeed.com

Ask about SMART 2010 Today!!!

SMART 2010 is a computer program that analyzes a customer's resume for skills and work experience. Using that data the computer can establish matches with current jobs throughout the state. The system then recommends to the client by means of e-mail a number of job matches based on the likelihood that the individual will follow the same career path.

Many job seekers possess skills for jobs that they may not consider in their day-to-day job searches. SMART 2010 looks at the entire person as a result of their resume. The program then searches for the best job openings available, immediately opening the door to more job opportunities.

Book of the Week

How to Get Any Job with Any Major by Donald Asher

This book offers creative ideas on how to launch your career. You will also find answers to such questions as how to prove you have skills that don't show up on your transcripts, which skills do employers value most, what to do to make sure you don't end up living in your parents basement, etc. You will learn how to discover your passion and launch a career – not just get a job.

Experience Works

Need a job, but lack the skills employers want? If you are 55 or old, with very limited income and want to work, we may be able to help. Local Representative: Deb Ryan 315.255.1703 (ext 130)

Basic PC Skills

You will learn about the basics of the computer including: using the mouse effectively, the computer's environment, Microsoft Word, online application and search techniques and e-mail. Register at Finger Lakes Works - Seneca County @ (315) 539-1905.

Interviewing Techniques

You got the interview, now what do you do? Register for this workshop. Learn what employers really want to know. What questions you should be able to answer before going to a job interview. Be aware of the importance of making a good first impression. Learn techniques regarding arrival time, appearance, body language, preparation and attitude. Also included are how to effectively answer tough questions and to ask pertinent questions in an interview.

WorkKeys

WorkKeys is a job skills assessment program measuring "real world" skills that employers believe are critical to job success. The program is valuable for any occupation and at any level of education; connecting work skills, training, and testing.

WorkKeys is the basis for the **National Career Readiness Credential (CRC)**; a career credential that certifies that job seekers have the core employability skills required across all industries and occupations. The CRC validates job applicants' skill levels in the three areas selected by employers as the most important: Reading for Information, Locating Information, and Applied Mathematics.

WorkKeys assessments are designed to identify training or remedial training needs to increase a person's marketability. Skill gaps can be addressed and closed through an on-line training program, Key Train, targeted to developing and increasing the WorkKeys skills.
